

eStores

What is eStores ?

eStores is an on-line store / web site (similar to amazon.com) filled with catalogs from preferred suppliers. It is a purchasing tool that provides users an easy way to search for and order needed items. eStores integrates fully with the PeopleSoft Financials System, meaning that requisitioners have the ability to search for items within the catalogs and build a shopping cart that will import into PeopleSoft.

There are 2 ways to access eStores:

1. Via the PeopleSoft Requisition Page
2. A "view-only" version can be accessed from the ibuy web site. Anyone with a name.# log in can search the catalogs and build a shopping cart that can be printed or emailed for entry into PeopleSoft.

Stores Service Center

stores@osu.edu

2-2694

What are the Benefits?

- Supports strategic procurement goals: helps aggregate spend
- Helps satisfy internal control requirements and other compliance issues
- Workflow for internal suppliers—no 100Ws
- eStores items are from contracted suppliers—no bids or waivers are required
- Contracted lowest overall pricing
- Considerable selection of products and suppliers (over 1 million items)
- Increases visibility of items from MBE and EDGE suppliers; Coming soon...items will be marked as "green"
- Automatic PO generation and dispatch
- Build and import a shopping cart directly into PeopleSoft ... click, don't type!
- Central point of contact via Stores Service Center (2-2694)
